

Dear participants and partners of DEFEST EXPO 2024,

The main objective of DEFEST EXPO 2024 is to bring together defense and security organizations and companies to demonstrate unity and strength in society. The cooperation of all participants will help to ensure coordination and preparedness in case of military conflicts or terrorist threats.

The following countries are interested in participating in the event: Austria, UK, Denmark, Germany, Finland, USA, Lithuania, Estonia, Ukraine, Slovakia, Slovenia, Pakistan, Turkey, Netherlands and other countries.

From 15 November 2023 to the end of December, the event started to be actively promoted and more than 60 companies showed interest and booked most of the exposition. In connection with the planned attacks on the event organizers, which began in January 2024, by hostile individuals, which are described in this article, we made every effort to secure the event from unfounded attacks. At the end of March, we succeeded in doing so, and a positive process began to realise the significance of the event. But, unfortunately, during this time we lost some of the participants and we believe that to re-consolidate we need more time. We have made a difficult decision and are postponing the event to 28-30 November 2024.

We are confident that the exhibition will take place and we will demonstrate unity and professionalism together with you, for those who understand well what is honor and duty to the people.

If the event is held in May as planned, we will let you down by the number of participants. And this will have a negative impact on you and on us as organizers.

For those who decide not to participate in the event, we will refund the paid funds within 30 days. We hope for your loyalty and support, because you are the strongest and most understanding, despite everything stayed with us until now.

We hope for your understanding and further co-operation!

Let's protect our future together!

Dmytro Dolgii
