

24<sup>th</sup> January 2025

## **MESSAGE**

It gives me great pleasure to extend my warm greetings to Aviation & Defence Universe (ADU), our esteemed Media Partner, on the occasion of Wings India 2026, scheduled to be held from 28–31 January 2026. This flagship event has emerged as a defining platform for showcasing India's remarkable progress and growing leadership in the global civil aviation ecosystem.

Over the past decade, India's civil aviation sector has witnessed unprecedented domestic growth, transforming air travel into a mass mode of transportation. With the rapid expansion of airport infrastructure, fleet induction, and passenger traffic, India today stands among the world's fastest-growing aviation markets. We are committed to improve connectivity, affordability, and service quality for every citizen.

Important in this transformation has been the Regional Connectivity Scheme (UDAN), which has successfully connected remote, underserved, and unserved regions of the country to the national aviation grid. By operationalising hundreds of new routes and reviving dormant airstrips, UDAN has brought the benefits of aviation to Tier-2, Tier-3 cities and remote areas, fostering regional development, tourism, trade, and employment generation. The success of this scheme has demonstrated how targeted policy interventions can create inclusive and sustainable growth.

In addition, the organisation of regional aviation meets across various parts of the country has further strengthened stakeholder engagement, policy responsiveness, and local ecosystem development. These platforms have enabled meaningful dialogue between policymakers, industry, and regional administrations, ensuring that India's aviation growth remains balanced, regionally inclusive, and aligned with grassroots aspirations.

Wings India itself has grown in stature and scale, evolving into a globally recognised civil aviation event that attracts industry leaders, policymakers, innovators, and investors from around the world. Each edition has expanded its reach, relevance, and impact, mirroring the rapid growth and rising ambitions of India's aviation sector. Wings India 2026 promises to be yet another milestone in this journey, fostering collaboration, innovation, and investment across the aviation value chain.

I appreciate the role played by Aviation & Defence Universe (ADU) in amplifying India's aviation success story and in projecting the dynamism of our sector to both domestic and global stakeholders. Your support as Media Partner contributes significantly to building awareness, confidence, and international engagement. As we look forward to Wings India 2026, I invite all stakeholders to make this event a celebration of India's civil aviation transformation and a catalyst for global cooperation. Together, let us work towards building an aviation ecosystem that is inclusive, resilient, innovative, and future-ready.

**Best wishes for the grand success of Wings India 2026.**
